VOLUME 155 JANUARY–MARCH 1967

THE JOURNAL OF
Pharmacology
AND EXPERIMENTAL THERAPEUTICS

FOUNDED BY JOHN J. ABEL 1909

Official Publication of The American Society for Pharmacology and Experimental Therapeutics, Inc.

EDITOR
J. B. KAHN, JR.

EXECUTIVE OFFICER
ELLSWORTH B. COOK

ASSISTANT EDITOR
GEORGE T. OKITA

EDITORS FOR SPECIFIC FIELDS

U. TRENDELENBURG: *Autonomic Pharmacology*
BERNARD WEISS: *Behavioral Pharmacology*
HERBERT TABOR: *Biochemical Pharmacology*
HENRY H. SWAIN: *Cardiovascular Pharmacology*
ALBERT SJOERDSMA: *Clinical Pharmacology*
ALLAN H. CONNEY: *Drug Metabolism and Disposition*
WILLIAM R. MARTIN: *Neuropharmacology*
I. M. WEINER: *Renal Pharmacology*
K. P. DUBOIS: *Toxicology*

EDITORIAL BOARD

Julius Axelrod

INDEX

Volume 155, January–March, 1967

Acetaminophen, comparison with acetophenetidin in healthy volunteers, 301
comparison with acetophenetidin in postpartum patients, 296
Acetophenetidin, comparison with acetaminophen in healthy volunteers, 301
comparison with acetaminophen in postpartum patients, 296
Acetylcholine-induced activity in sympathetic ganglia, 203
Addiction, to morphine, electroencephalographic, electromyographic and behavioral correlates during, 521
Adrenal steroids, influence on cardiovascular responses to norepinephrine, 415
Adrenalectomy, effect on cardiovascular responses to norepinephrine, 415
Adrenergic blocking agents, reduction in constriction by phenoxybenzamine, 31
uptake of propranolol, 91
Adrenergic drugs, steric aspects of, 1, 13, 24
Adrenergic nerve endings, histochemical and functional relationships of catecholamines in, 428
Alper, M. H., *see* Flacke, W., 271
Anaerobic perfusion of turtle heart, and utilization of glucose, 397
Analgesics, comparison of effects in healthy volunteers, 301
comparison of effects in postpartum patients, 296
Antiarrhythmic effects, of diphenylhydantoin in cultured heart cells, 267
Anticonvulsant action, of carbonic anhydrase inhibitors, 127
Antiepileptic agents, effects on spontaneous electrical activity of squid axon, 532
Antiinflammatory agents, pharmacology of indoxole, 157
Antiparkinsonian agents, effects on spontaneous electrical activity of squid axon, 532
Aramendía, P. and Kaumann, A. J., 259
Atanacković, D., *see* Flacke, W., 271
Atria, isolated, uptake of propranolol by, 91
Aviado, D. M., Folle, L. E. and Pisanty, J., 76

Baker, W. W., *see* Connor, J. D., 545
Barboriak, J. J., *see* Smith, S. S., 397
Bartels, E., *see* Rosenberg, P., 532
Bartter, F. C., *see* Gill, J. R., Jr., 288
Beck, L., *see* Brody, M. J., 84
see Levin, J. A., 31
Bensch, K. G., *see* Van Orden, L. S., III, 428
Bert, J. K., *see* Moore, K. E., 506
Bhagat, B., Bovell, G. and Robinson, I. M., 472
Bianchi, C. P., *see* Novotny, I., 456
Bilirubin excretion, effects of α-naphthylisothiocyanate, 330
Bing, R. J., *see* Ogawa, K., 449
Biometrics, new method for analyzing analgesic response, 296
Bovell, G., *see* Bhagat, B., 472
Bowman, B. J., *see* Glenn, E. M., 157
Brain amines, relation to anticonvulsant action of carbonic anhydrase inhibitors, 127
Briggs, A. H., *see* Shibata, S., 422
Brobyn, R. D., *see* Hucker, H. B., 309
Brody, M. J., DuCharme, D. W. and Beck, L., 84
Burns, J. J., *see* Kuntzman, R., 337

Caffeine, effects on Ca^{45} movement in rat muscle, 376
Cafruny, E. J. and Gussin, R. Z., 181
Calcium, effects of caffeine on movement in rat muscle, 376
exchange in adrenal glands, inhibition by tetracaine and magnesium, 463
in reserpine supersensitivity, 42
influence on cardiac effects of ouabain and rhodochlorin, 50
Calesnick, B., *see* Hucker, H. B., 309
Campbell, D., *see* Patil, P. N., 13
Caprio, A. and Farah, A., 403
Carbachol, tremor induced by intracaudate injection of, antagonized by catecholamines, 545
Carbon, incorporation from carbon tetrachloride into liver cell constituents, 117
Carbon tetrachloride, incorporation into chemical constituents of liver, 117
Carbonic anhydrase, anticonvulsant action of inhibitors, 127
Cardiac function, relationship to phosphorylase activation, 389
Cardiac inotropic responses to norepinephrine, relation to concentration of norepinephrine in hypothermia, 231
Cardiopulmonary effects of quinazoline, 76
Carrier, O., Jr. and Shibata, S., 42
Catecholamines, as antagonists of tremor from intracaudate carbachol, 545
brain, relation to anticonvulsant action of carbonic anhydrase inhibitors, 127
effect of phenoxybenzamine on neurogenic release by, 31

histochemical and functional relationships in adrenergic nerve endings, 428
relationship of metabolism to *m*-fluorotyrosine, 135
role of calcium on reserpine supersensitivity, 42
secretion in adrenal glands, inhibition by tetracaine and magnesium, 463
sensitization by cocaine to stereoisomers of, 24
turnover in active and hibernating ground squirrels, 101
Catz, C. and Yaffe, S. J., 152
Charalampous, K. D. and Tansey, L. W., 318
Chlorcyclizine, inactivation by N-oxide formation, 337
metabolism by N-oxide formation, 337
metabolism of, and incidence of cleft palate in rats, 494
Chlorine, incorporation from carbon tetrachloride into liver cell constituents, 117
Chlormezanone, peripheral component of effects, 145
Cleft palate, in rats, relation to metabolism of chlorcyclizine, 494
Cocaine, influence on response of atria to sympathomimetic amines, 472
influence on uptake of norepinephrine by atria, 472
stereospecificity of sensitization to catecholamine isomers by, 24
Conney, A. H., *see* Welch, R. M., 167
Connor, J. D., Rossi, G. V. and Baker, W. W., 545
Convulsions, induced by *m*-fluorotyrosine, 135
Cooke, W. J., *see* Rosenberg, F. J., 145
Corticosteroids, influence on cardiovascular responses to norepinephrine, 415
Cotten, M. deV., Logan, M. E. and Moore, J. I., 231
see Logan, M. E., 242
see Moore, J. I., 250

Davis, M., *see* Lasagna, L., 296
Desoxy derivatives, and isomers of adrenergic drugs, effects on reserpine-pretreated vas deferens, 13
of adrenergic agents, comparison with stereoisomers, 1
Dhalla, N. S. and McLain, P. L., 389
Digoxin-treated heart cells, effects of diphenylhydantoin on beating of, 267
Dimethoxyethylquinazoline, cardiopulmonary effects of, 76
β-(3,4-Dimethoxyphenyl)-ethylamine, metabolism in man, 318
Dimethylsulfoxide, absorption, excretion and metabolism in man, 309
Diphenylhydantoin, effects on heart cells *in vitro*, 267
Diuretics, mercurial, excretion in aglomerular fish, 181
Dopamine, active reflex vasodilatation induced by, 84
Dorevitch, N., Nayler, W. G. and Lowe, T. E., 367
Dower, G. E., *see* Mercer, E. N., 267
Draskóczy, P. R. and Lyman, C. P., 101
DuCharme, D. W., *see* Brody, M. J., 84

Eade, N. R. and Lasagna, L., 301
Electrical activity, of pacemaker fibers in sinus node, effects of methylguanidine, 69
of squid giant axon, effects of drugs, 532
Electroencephalographic, electromyographic and behavioral correlates, during morphine addiction in the rat, 521
Elliott, H. W., *see* Nelson, R. B., 516
Epinephrine, potentiation in isolated aortic strips, 422
Evans, C. T., *see* Long, J. P., 223

see Teiger, D., 58
Feinstein, M. B., *see* Rubin, R. P., 463
Flacke, W., Atanacković, D., Gillis, R. A. and Alper, M. H., 271
m-Fluorotyrosine, convulsive and metabolic effects, 135
Folle, L. E., *see* Aviado, D. M., 76
Fouts, J. R., *see* Gram, T. E., 479

Gaffney, T. E., *see* Margolius, H. S., 415
Gehring, P. J. and Hammond, P. B., 187
Giarman, N. J., *see* Van Orden, L. S., III, 428
Gill, J. R., Jr., Mason, D. T. and Bartter, F. C., 288
Gillis, R. A., *see* Flacke, W., 271
Glenn, E. M., Bowman, B. J., Kooyers, W., Koslowske, T. and Myers, M. L., 157
see Kaiser, D. G., 174
Glucose, utilization in anaerobically perfused turtle heart, 397
Gram, T. E., Rogers, L. A. and Fouts, J. R., 479
Graves, A., *see* Posner, H. S., 494
Gray, W. D. and Rauh, C. E., 127
Gudbjarnason, S., *see* Ogawa, K., 449
Gussin, R. Z., *see* Cafruny, E. J., 181

Halogenated hydrocarbon insecticides, effect on steroid hydroxylases, 167
Hammond, P. B., *see* Gehring, P. J., 187
Hardman, H. F., *see* Smith, S. S., 397
Heart, anaerobically perfused, utilization of glucose in, 397
Heart-lung preparation, effects of histamine on, 271
Hemicholinium analogs, pharmacologic evaluation of, 223

Hendrickson, M. J., *see* Wong, K. C., 50
Hexobarbital, variations of toxicity with age and strain of mice, 152
Hibernation, influence on turnover of catecholamines, 101
Histamine, effects on dog heart-lung preparations, 271
Hochberg, A., *see* Hucker, H. B., 309
Holland, W. C., *see* Shibata, S., 422
Hucker, H. B., Miller, J. K., Hochberg, A., Brobyn, R. D., Riordan, F. H. and Calesnick, B., 309
Hydrocortisone, effect on cardiovascular responses to norepinephrine, 415
Hydroxyamphetamine, effects in normotensive subjects, 288
5-Hydroxytryptamine, effects on sodium transport in frog skin, 352
Hypertension, effects of hydroxyamphetamine on, 288
Hypothermia, influence of drugs on cardiac muscle mechanics during, 250
influence on relation of cardiac inotropic response to catecholamine concentration, 231

Indoxole, correlation of concentration in serum with biologic activity, 174
pharmacology of, 157
Insecticides, inhibition and stimulation of steroid hydroxylases by, 167
Ion concentration, effect on positive inotropic response to ouabain, 403
Iris sphincter, effects of serotonin, 440
Isaacson, A. and Sandow, A., 376
Isomers, and desoxy derivatives of adrenergic agents, comparison of effects, 1
and desoxy derivatives of adrenergic drugs, effects on reserpine-pretreated vas deferens, 13

Lowe, T. E., *see* Dorevitch, N., 367
Lyman, C. P., *see* Draskóczy, P. R., 101

Magnesium, as inhibitor of catecholamine secretion and calcium exchange in adrenal glands, 463
interaction with vasopressin in intestinal smooth muscle, 357
Margolius, H. S., Reid, P., Mohammed, S. and Gaffney, T. E., 415
Marshall, J. M., *see* Taira, N., 69
Mason, D. T., *see* Gill, J. R., Jr., 288
McIntyre, A. R., *see* Wong, K. C., 50
McLain, P. L., *see* Dhalla, N. S., 389
Membrane potential in sinoatrial nodal fibers, effects of methylguanidine, 69
Mephenesin, peripheral component of effects, 145
Mercer, E. N., Ziegler, W. G., Wickland, G. F. and Dower, G. E., 267
Mercurial diuretics, renal tubular excretion in aglomerular fish, 181
Metabolism, catecholamine and citrate, effect of *m*-fluorotyrosine, 135
of chlorcyclizine, and incidence of cleft palate in rats, 494
of chlorcyclizine, by N-oxide formation, 337
of β-(3,4-dimethoxyphenyl)-ethylamine in man, 318
of dimethylsulfoxide in man, 309
of drugs by subfractions of hepatic microsomes, 479
of *m*-fluorotyrosine, 135
of tyramine, in normal and tachyphylactic rat atria, 211
relationship of potassium and thallium, 187
Methylguanidine, effects on electrical activity of sinoatrial nodal fibers, 69
α-Methyltyrosine, toxicologic effects in rats, 506
Microsomal enzymes, drug-metabolizing, localization by subfractionation of liver microsomes, 479
drug-metabolizing, relations to age and strain of mice, 152
effect of insecticides on steroid hydroxylases, 167

Miller, J. K., *see* Hucker, H. B., 309
MJ 1988, cardiopulmonary effects of, 76
MJ 1999, inhibition of sympathomimetic cardiovascular effects by, 259
Mohammed, S., *see* Margolius, H. S., 415
Monoamine oxidase inhibition, by nitroglycerin, 449
Moore, J. I. and Cotten, M. deV., 250
see Cotten, M. deV., 231
Moore, K. E., Wright, P. F. and Bert, J. K., 506
Morphine, addiction in rats, electroencephalographic, electromyographic and behavioral correlates, 521
central effects in rats and mice, 516
Morphinone, central effects in rats and mice, 516
Mortality, induced by *m*-fluorotyrosine, 135
Muscle, atrial, effect of sodium and rate of stimulation on refractory period, 58
cardiac, influence of norepinephrine and ouabain on mechanics of, during hypothermia, 250
skeletal, effects of caffeine on calcium movement in, 376
skeletal, effects of Xylocaine on oxygen consumption, 456
Muscle relaxants, centrally acting, peripheral component of effects, 145
Myers, M. L., *see* Glenn, E. M., 157
Myocardial activity, influence on rate of onset of ouabain action, 279

α-Naphthylisothiocyanate, effects on excretion of bilirubin, 330
Nayler, W. G., *see* Dorevitch, N., 367
Nelson, R. B. and Elliott, H. W., 516
Nitroglycerin, as a monoamine oxidase inhibitor, 449
Norepinephrine, effect of phenoxybenzamine on neurogenic release by, 31
effects on cardiovascular system after hydrocortisone or adrenalectomy, 415
effects on phosphorylase and cardiac function, 389
extravesicular, localization in adrenergic nerve endings, 428
influence of ouabain on inotropic responses to, 242
influence on cardiac muscle mechanics during hypothermia, 250
relation of concentration to cardiac response in hypothermia, 231
release from dog heart by histamine, 271
reserpine supersensitivity to, and role of calcium, 42
uptake by atria, influence of cocaine on, 472
Novotny, I. and Bianchi, C. P., 456

Octopamine, formation from tyramine in rat atria, 211
Ogawa, K., Gudbjarnason, S. and Bing, R. J., 449
O'Neal, R. M., *see* Suzuki, M., 345
Organic bases, accumulation by human platelets, 112
Organic phosphorothionates, inhibition of steroid hydroxylases by, 167
Ouabain, effects of calcium on cardiac actions of, 50
influence of ion concentration on inotropic effects, 403
influence on cardiac muscle mechanics during hypothermia, 250
influence on inotropic response to norepinephrine, 242
relation of onset of action and myocardial activity, 279
N-Oxidation, of chlorcyclizine, 337
Oxygen, consumption by frog sartorius muscle, effect of Xylocaine, 456

Pacemaker fibers, chronotropic effects of methylguanidine, 69
Paimre, M., *see* Rubin, R. P., 463
Paredrine, effects in normotensive subjects, 288
Patil, P. N., LaPidus, J. B., Campbell, D. and Tye, A., 13
LaPidus, J. B. and Tye, A., 1
see Tye, A., 24
Pearson, J. W., *see* Lasagna, L., 296
Phenoxybenzamine, reduction of neurogenically induced constriction, 31
Phillips, A., *see* Kuntzman, R., 337
Phosphorylase activation, relationship to cardiac function, 389
Pisanty, J., *see* Aviado, D. M., 76
Plaa, G. L., *see* Roberts, R. J., 330
Platelets, human, accumulation of organic bases by, 112
Posner, H. S., Graves, A., King, C. T. G. and Wilk, A., 494
Potassium, relationship to thallium metabolism, 187
Potter, L. T., 91
Propranolol, uptake by isolated atria, 91
Propylthiouracil, effects of therapeutic and toxic doses in rats, 345

Quinazoline, cardiopulmonary effects of, 76

Rauh, C. E., *see* Gray, W. D., 127
Refractory period, effect of sodium and rate of stimulation, 58
Reid, P., *see* Margolius, H. S., 415
Renal tubular excretion, of mercurial diuretics in aglomerular fish, 181
Reserpine supersensitivity and role of calcium, 42
Reynolds, E. S., 117

Rhodochlorin, effects of calcium on cardiac actions of, 50
Riker, W. K., 203
Riordan, F. H., *see* Hucker, H. B., 309
Roberts, R. J. and Plaa, G. L., 330
Robinson, I. M., *see* Bhagat, B., 472
Rogers, L. A., *see* Gram, T. E., 479
Rosenberg, F. J. and Cooke, W. J., 145
Rosenberg, P. and Bartels, E., 532
Rossi, G. V., *see* Connor, J. D., 545
Rubin, R., *see* Koella, W. P., 440
Rubin, R. P., Feinstein, M. B., Jaanus, S. D. and Paimre, M., 463

Sandow, A., *see* Isaacson, A., 376
Sayoc, E F. and Little, J. M., 352
Schaeppi, U., *see* Koella, W. P., 440
Scheider, F., *see* Teiger, D., 58
Schroeder, L. A., *see* Khazan, N., 521
Serotonin, effects on isolated iris sphincter of cats, 440
effects on sodium transport in frog skin, 352
Shibata, S., Briggs, A. H. and Holland, W. C., 422
see Carrier, O., Jr., 42
Smith, S. S., Barboriak, J. J. and Hardman, H. F., 397
Smooth muscle, effects of kinekard on, 367
intestinal, interaction of magnesium with vasopressin in, 357
Sodium, effect on cardiac refractory period, 58
transport in frog skin, effects of 5-hydroxytryptamine, 352
Solomon, H. M. and Zieve, P. D., 112
Somlyo, A. P., *see* Woo, C.-Y., 357
Statistics, new method for analyzing analgesic response, 296
Stereospecificity, of sensitization by cocaine to catecholamines, 24
Steroid hydroxylases, inhibition and stimulation by insecticides, 167
Structure-activity relations, among analogs of hemicholinium, 223
of adrenergic drugs, 13
Suzuki, M. and O'Neal, R. M., 345
Sympathetic ganglia, discharge induced by acetylcholine in, 203
Sympathetic nervous system, effects of hydroxyamphetamine on, 288
Sympathomimetic amines, steric aspects, 13
Sympathomimetic effects, on cardiovascular system, inhibition by MJ 1999, 259

Tachyphylaxis, to tyramine, relation to tyramine and octopamine metabolism, 211
Taira, N. and Marshall, J. M., 69
Tansey, L. W., *see* Charalampous, K. D., 318

CONTENTS OF VOLUME 155

No. 1, January 1967

Steric Aspects of Adrenergic Drugs. I. Comparative Effects of DL Isomers and Desoxy Derivatives. P. N. Patil, J. B. LaPidus and A. Tye 1

Steric Aspects of Adrenergic Drugs. II. Effects of DL Isomers and Desoxy Derivatives on the Reserpine-Pretreated Vas Deferens. P. N. Patil, J. B. LaPidus, D. Campbell and A. Tye 13

Steric Aspects of Adrenergic Drugs. III. Sensitization by Cocaine to Isomers of Sympathomimetic Amines. A. Tye, P. N. Patil and Jules B. LaPidus 24

Selective Reduction in Neurogenically Induced Constriction by Phenoxybenzamine. Jerome A. Levin and Lloyd Beck 31

A Possible Role for Tissue Calcium in Reserpine Supersensitivity. Oliver Carrier, Jr. and Shoji Shibata 42

The Influence of Calcium on the Cardiotropic Actions of Rhodochlorin and Ouabain. K. C. Wong, M. J. Hendrickson and A. R. McIntyre 50

The Effects of Sodium Ion and Rate of Stimulation on the Refractory Period of Isolated Rabbit Atrial Muscle. D. Teiger, F. Scheider and A. Farah 58

Effects of Methylguanidine on the Electrical Activity of Single Pacemaker Fibers in the Sinus Node of the Rabbit. Norio Taira and Jean M. Marshall 69

The Cardiopulmonary Effects of a Quinazoline (MJ 1988): Cardiac Stimulant, Pulmonary Vasodilator and Bronchodilator. Domingo M. Aviado, Luis E. Folle and Jose Pisanty 76

Active Reflex Vasodilatation Induced by Veratrine and Dopamine. M. J. Brody, D. W. DuCharme and L. Beck 84

Uptake of Propranolol by Isolated Guinea-Pig Atria. Lincoln T. Potter 91

Turnover of Catecholamines in Active and Hibernating Ground Squirrels. Paul R. Draskóczy and Charles P. Lyman 101

The Accumulation of Organic Bases by the Human Platelet. Harvey M. Solomon and Philip D. Zieve 112

Liver Parenchymal Cell Injury. IV. Pattern of Incorporation of Carbon and Chlorine from Carbon Tetrachloride into Chemical Constituents of Liver *in Vivo*. Edward S. Reynolds 117

The Anticonvulsant Action of Inhibitors of Carbonic Anhydrase: Relation to Endogenous Amines in Brain. William D. Gray and Charles E. Rauh 127

m-Fluorotyrosine Convulsions and Mortality: Relationship to Catecholamine and Citrate Metabolism. Albert Weissman and B. Kenneth Koe 135

A Peripheral Component of Centrally Acting Muscle Relaxants: Chlormezanone and Mephenesin. Franklin J. Rosenberg and William J. Cooke 145

Strain and Age Variations in Hexobarbital Response. Charlotte Catz and Sumner J. Yaffe 152

The Pharmacology of 2,3-Bis-(*p*-Methoxyphenyl)-Indole (Indoxole). E. Myles Glenn, B. J. Bowman, W. Kooyers, T. Koslowske and M. L. Myers 157

Insecticide Inhibition and Stimulation of Steroid Hydroxylases in Rat Liver. R. M. Welch, W. Levin and A. H. Conney 167

Correlation of Serum Indoxole [2,3-Bis(*p*-Methoxyphenyl)-Indole] Levels with Biologic Activity. D. G. Kaiser, E. M. Glenn, R. H. Johnson and R. L. Johnston 174

Renal Tubular Excretion of Mercurials in the Aglomerular Fish, *Lophius americanus*. E. J. Cafruny and R. Z. Gussin 181

The Interrelationship between Thallium and Potassium in Animals. P. J. Gehring and P. B. Hammond 187

No. 2, February 1967

The Basis of the Low-Amplitude Discharge Produced by Acetylcholine Injection in Sympathetic Ganglia. William K. Riker 203

The Uptake of Tyramine and Formation of Octopamine in Normal and Tachyphylactic Rat Atria. F.-L. Lee, N. Weiner and U. Trendelenburg. 211
A Pharmacologic Evaluation of Hemicholinium Analogs. J. P. Long, C. T. Evans and S. Wong. 223
Relationships among Cardiac Inotropic Responses to Norepinephrine and Cardiac and Blood Concentrations of H^3-Norepinephrine during Hypothermia. Marion deV. Cotten, Mary Ella Logan and Joanne I. Moore. 231
Influence of Ouabain on the Positive Inotropic Responses to Norepinephrine in Isolated Guinea-Pig and Dog Heart Preparations at 37° and 27°. Mary Ella Logan and Marion deV. Cotten. 242
Influence of Norepinephrine and Ouabain on Cardiac Muscle Mechanics during Hypothermia. Joanne I. Moore and Marion deV. Cotten. 250
Inhibition of Sympathomimetic Effects on the Cardiovascular System by 4-(2-Isopropylamino-1-Hydroxyethyl)Methanesulfonanilide Hydrochloride (MJ 1999). P. Aramendía and A. J. Kaumann. 259
The Effect of Diphenylhydantoin upon Beating of Heart Cells Grown *in Vitro*. Edward N. Mercer, William G. Ziegler, Gail F. Wickland and Gordon E. Dower. 267
The Actions of Histamine on the Mammalian Heart. Werner Flacke, D. Atanacković, R. A. Gillis and M. H. Alper. 271
Influence of Myocardial Activity on the Rate of Onset of Ouabain Action. Frank F. Vincenzi. 279
Effects of Hydroxyamphetamine (Paredrine) on the Function of the Sympathetic Nervous System in Normotensive Subjects. John R. Gill, Jr., Dean T. Mason and Frederic C. Bartter. 288
A Comparison of Acetophenetidin and Acetaminophen. I. Analgesic Effects in Postpartum Patients. Louis Lasagna, Miles Davis and John W. Pearson. 296
A Comparison of Acetophenetidin and Acetaminophen. II. Subjective Effects in Healthy Volunteers. Norman R. Eade and Louis Lasagna. 301
Studies on the Absorption, Excretion and Metabolism of Dimethylsulfoxide (DMSO) in Man. H. B. Hucker, J. K. Miller, A. Hochberg, R. D. Brobyn, F. H. Riordan and B. Calesnick. 309
Metabolic Fate of β-(3,4-Dimethoxyphenyl)-Ethylamine in Man. K. D. Charalampous and L. Wayne Tansey. 318
Alteration of the Plasma Disappearance and Biliary Excretion Patterns of Exogenously Administered Bilirubin by α-Naphthylisothiocyanate. Robert J. Roberts and Gabriel L. Plaa. 330
N-Oxide Formation: A New Route for Inactivation of the Antihistaminic Chlorcyclizine. R. Kuntzman, A. Phillips, I. Tsai, A. Klutch and J. J. Burns. 337
Effects of Therapeutic and Toxic Doses of Propylthiouracil in Rats. Minoru Suzuki and Robert M. O'Neal. 345
The Effect of 5-Hydroxytryptamine on Sodium Transport in Frog Skin. Emma F. Sayoc and J. Maxwell Little. 352
Interaction of Magnesium with Vasopressin in Intestinal Smooth Muscle. Chi-Yuan Woo and Andrew P. Somlyo. 357
The Action on Isolated Smooth Muscle of Kinekard, a Cardioactive Fraction Isolated from Human Plasma. N. Dorevitch, W. G. Nayler and T. E. Lowe. 367
Caffeine Effects on Radiocalcium Movement in Normal and Denervated Rat Skeletal Muscle. Allen Isaacson and Alexander Sandow. 376

No. 3, March 1967

Studies on the Relationship between Phosphorylase Activation and Increase in Cardiac Function. Naranjan S. Dhalla and Paul L. McLain. 389
Utilization of Glucose in the Anaerobically Perfused Turtle Heart. Sandra S. Smith, Joseph J. Barboriak and Harold F. Hardman. 397
The Effect of the Ionic Milieu on the Response of Rabbit Cardiac Muscle to Ouabain. A. Caprio and A. Farah. 403
The Effect of Adrenalectomy and Hydrocortisone on Responses to Norepinephrine and

Stimulation of the Cardioaccelerator Nerve. HARRY S. MARGOLIUS, PHILIP REID, SHAKIL MOHAMMED AND THOMAS E. GAFFNEY 415
Epinephrine Potentiation in Isolated Rabbit Aortic Strips. SHOJI SHIBATA, ARTHUR H. BRIGGS AND WILLIAM C. HOLLAND 422
Histochemical and Functional Relationships of Catecholamines in Adrenergic Nerve Endings. II. Extravesicular Norepinephrine. L. S. VAN ORDEN, III, K. B. BENSCH AND N. J. GIARMAN 428
Effects of Serotonin upon the Isolated Iris Sphincter of the Cat. W. P. KOELLA, R. RUBIN AND U. SCHAEPPI 440
Nitroglycerin (Glyceryl Trinitrate) as a Monoamine Oxidase Inhibitor. KOUICHI OGAWA, SIGMUNDUR GUDBJARNASON AND RICHARD J. BING 449
The Effect of Xylocaine on Oxygen Consumption in the Frog Sartorius. I. NOVOTNY AND C. P. BIANCHI 456
Inhibition of Catecholamine Secretion and Calcium Exchange in Perfused Cat Adrenal Glands by Tetracaine and Magnesium. RONALD P. RUBIN, MAURICE B. FEINSTEIN, SIRET D. JAANUS AND MARVE PAIMRE 463
Influence of Cocaine on the Uptake of H^3-Norepinephrine and on the Responses of Isolated Guinea-Pig Atria to Sympathomimetic Amines. B. BHAGAT, G. BOVELL AND INA M. ROBINSON 472
Further Studies on the Metabolism of Drugs by Subfractions of Hepatic Microsomes. THEODORE E. GRAM, LARRY A. ROGERS AND JAMES R. FOUTS 479
Experimental Alteration of the Metabolism of Chlorcyclizine and the Incidence of Cleft Palate in Rats. HERBERT S. POSNER, ALZENA GRAVES, C. T. G. KING AND ANN WILK 494
Toxicologic Studies with α-Methyltyrosine, an Inhibitor of Tyrosine Hydroxylase. K. E. MOORE, P. F. WRIGHT AND J. K. BERT 506
A Comparison of Some Central Effects of Morphine, Morphinone and Thebaine on Rats and Mice. ROBERT B. NELSON AND HENRY W. ELLIOTT 516
Electroencephalographic, Electromyographic and Behavioral Correlates during a Cycle of Self-Maintained Morphine Addiction in the Rat. NAIM KHAZAN, JAMES R. WEEKS AND LAWRENCE A. SCHROEDER 521
Drug Effects on the Spontaneous Electrical Activity of the Squid Giant Axon. PHILIP ROSENBERG AND EVA BARTELS 532
Antagonism of Intracaudate Carbachol Tremor by Local Injections of Catecholamines. J. D. CONNOR, G. V. ROSSI AND W. W. BAKER 545
Index, Volume 155, January–March 1967 553

VOLUME 156 APRIL–JUNE 1967

THE JOURNAL OF
Pharmacology
AND EXPERIMENTAL THERAPEUTICS

FOUNDED BY JOHN J. ABEL 1909

Official Publication of The American Society for Pharmacology and Experimental Therapeutics, Inc.

EDITOR
J. B. KAHN, JR.

EXECUTIVE OFFICER
ELLSWORTH B. COOK

ASSISTANT EDITOR
GEORGE T. OKITA

EDITORS FOR SPECIFIC FIELDS

U. TRENDELENBURG: *Autonomic Pharmacology*
BERNARD WEISS: *Behavioral Pharmacology*
HERBERT TABOR: *Biochemical Pharmacology*

INDEX

Volume 156, April–June 1967

N-7-Acetylchlorothiazide, biochemical basis of renal activity, 193
Acetylcholine, effects on neurons in Deiters' nucleus and in cerebellum, 39
-induced activation of muscle spindle afferents, antagonism by tubocurarine, 573
sympathetic activity as result of hypertensive response to, 232
Acetylcholinesterase, method for radiometric microassay of, 500
Acetylenic carbamates, related to McN-A-343, structure-activity relationships among, 238
Adenosine, effect and mode of action on smooth muscle, 557
Adler, T. K., 585
Adrenal gland, catecholamine output stimulated by angiotensin and bradykinin, 252
influence of ouabain on formation of corticosterone in, 300
Adrenalectomy, chlorothiazide-induced kaliuresis after, 366
effect on ganglion blockade, 215
Adrenergic *beta* receptors, properties of, relation to catechol-O-methyl transferase, 201
Adrenergic blocking agents, as inhibitors of extraneuronal accumulation and metabolism of norepinephrine, 107
effects on gastric secretion, 142
Adrenergic drugs, steric aspects of, 445
Adrenergic facilitatory influences, in Schiff-Sherrington phenomenon, 48
Adrenergic receptor blocking properties, comparison of 1-(4′-methylphenyl)-2-isopropylamino-propanol-HCl and propranolol, 452
Aghajanian, G. K. and Bloom, F. E., 23, 407
Agonist-antagonist interactions, in normal and supersensitive nictitating membrane, 207
Albuquerque, E. X., *see* Smith, C. M., 573
Alkylating agents, and effects of antidiuretic hormone in toad bladder, 606
Aminophylline, effect and mode of action on smooth muscle, 557
Angiotensin, as stimulant of catecholamine output of adrenal gland, 252
sympathetically mediated effects on dog heart *in situ*, 528
Antiarrhythmias, comparison of actions of iproveratril and MJ 1999 with quinidine and pronethalol, 331
Anticonvulsant action, of inhibitors of carbonic anhydrase, 383
Antidepressant drugs, effects on maze learning, 76
Antidiuretic hormone, effects in toad bladder, 606
Antihistaminics, mechanism of potentiation of norepinephrine, 463
Avoidance-escape behavior, disruption of, relation to chlorpromazine-evoked hypothermia, 397
Axelrod, J., *see* Eisenfeld, A. J., 107

Bain, G., *see* Latz, A., 76
Baldessarini, R. J. and Kopin, I. J., 31
Ball, J., *see* Lippmann, W., 258
Bapna, J. S., *see* Menon, M. K., 63
Barisco, C. R. Gaffney, T. E., Fukusumi, H., Holmes, J., Fowler, N. O. and Conradi, E. C., 294
Barnes, C. D., *see* Herman, E. H., 48
Bass, P. and Patterson, M. A., 142
Behavioral depression, induced by α-methyltyrosine, antagonism by monoamine oxidase inhibitors, 70
Behavioral response to chlorpromazine, relation to hypothermia, 397
Berman, D. A., *see* Posner, C. J., 166
Beta adrenergic blocking effects, of optical isomers of methoxamine and isopropylmethoxamine, 445
Beta adrenergic stimulation and blockade, effects on human uterus at term, 178
Binopoulos, D., *see* Constantinides, C., 369
Blaber, L. C. and Karczmar, A. G., 55
Bloom, F. E., *see* Aghajanian, G. K., 23, 407
Bloomfield, S. S., Tetreault, L., Lafreniere, B. and Bordeleau, J. M., 375
Boadle, M. C., *see* Govier, W. C., 339
Booth, S. J., *see* Hosein, E. A., 565
Bordeleau, J. M., *see* Bloomfield, S. S., 375
Boyarsky, L. L., *see* Frazier, D. T., 1
Bradykinin, as stimulant of catecholamine output of adrenal gland, 252
Burkhalter, L., *see* Marcus, F. I., 548
Burks, T. F. and Long, J. P., 267
Buzard, J. A., *see* Stern, I. J., 492

Cabana, B. E., *see* Gessner, P. K., 602
Cafruny, E. J., *see* Small, A., 616
Carbachol, resistance to effects of, after subacute administration of an organophosphorus cholinesterase inhibitor, 507
Carbonic anhydrase, site and mode of anticonvulsant action of inhibitors of, 383

Cardiac pacemaker, effects of dopamine and α-methyl-dopamine on, 310
Cardiovascular effects, of phenylephrine, 325
of prostaglandin E_1, 538
Carnitine derivatives, pharmacologic properties of, 565
Carter, V. L., Jr., Trager, D. L. and Gardier, R. W., 232
Catecholamines, action of imidazole on cardiac effects of, 514
effect on cardiac lipoprotein lipase activity, 426
hypothalamic, relationship to gonadotrophin secretion, 258
levels in rat brain after hypothalamic lesions, 12
α-methyltyrosine-induced depletion, antagonism by monoamine oxidase inhibitors, 70
output of adrenal gland of the dog, stimulated by angiotensin and bradykinin, 252
potentiation of actions by a derivative of hemicholinium, 469
Catechol-O-methyl transferase, properties of, relation to adrenergic *beta* receptors, 201
Central nervous system, effect of drugs on release of norepinephrine-H^3 from, 31
Cerebellum, responses to acetylcholine and norepinephrine, 39
Cerra, F., *see* Mallov, S., 426
Chan, W. Y. and Kelley, N., 150
Chloral alcoholate, role in interaction of chloral hydrate and ethanol, 602
Chloral hydrate, role of chloral alcoholate in interaction with ethanol, 602
Chlorothiazide-induced kaliuresis, after adrenalectomy, 366
Chlorpromazine, hypothermia evoked by, relation to disruption of conditioned avoidance-escape behavior, 397
modification of effects by α-methyl-*l*-tyrosine, 63
Cholinergic properties, of relay junctions of primary afferent pathway, 1
Cholinesterase activity, inhibited, reactivation by pyridinium aldoxime methochloride after soman poisoning, 345
Clark, D. A., *see* Fortney, S. R., 277
Codeine, demethylation in morphine-tolerant mice, 585
effects as compared with those of morphine in man, 101
Conradi, E. C., *see* Bariso, C. R., 294
Constantinides, C., Binopoulos, D. and Malamos, B., 369
Coppola, J. A., *see* Lippmann, W., 258
Cortical excitability threshold, comparison of effects of phenobarbital and pentobarbital, 598
Corticosterone, formation of, influence of ouabain on, 300
Cuccia, C., *see* Marcus, F. I., 548
Dandiya, P. C., *see* Menon, M. K., 63
Dar, M. S., *see* McPhillips, J. J., 507
Day, R. A., *see* Mahon, W. A., 178
Deacylation of N-7-acetylchlorothiazide, 193
Deiters' nucleus, responses to acetylcholine and norepinephrine, 39
Demethylation, *in vivo*, of morphine and codeine in tolerant mice, 585
Denervation, changes in sensitivity of sweat glands after, 126
Depolarizing drugs, interactions with facilitating drugs at neuromyal junction, 55
De Robertis, E., *see* Kataoka, K., 114
Desmethylimipramine, effects on localization of H^3-norepinephrine, 407
Digitalis, capacity to induce ventricular rhythm disturbances in reserpine-pretreated cat, 159
Digitalis glycosides, metabolic fate of tritiated digoxin, 548
Digoxin, tritiated, metabolic fate with and without loading dose, 548
Diphenylhydantoin, effect on posttetanic hyperpolarization of intramedullary nerve terminals, 591
Di-Syston, and resistance to effects of carbachol, 507
Disulfiram, as inhibitor of dopamine-β-hydroxylase, 246
Diuretics, comparison of effects, use of whole-body counter, 369
Dopamine, effect on smooth muscle and the cardiac pacemaker, 310
effects on renal function and hemodynamics, 186
replacement for norepinephrine as sympathetic transmitter, 246
Dopamine-β-hydroxylase, inhibition by disulfiram, effect on dopamine and norepinephrine levels, 246
Duggan, D. E., 193

Eisenfeld, A. J., Axelrod, J. and Krakoff, L., 107
Electro-release of norepinephrine-H^3 from brain, 31
Electron-microscopic autoradiography, localization of H^3-norepinephrine in rat brain, 407
localization of tritiated serotonin in rat brain, 23
Epinephrine, activation of phosphorylase by, effect of pH, 417
effect and mode of action on smooth muscle, 557
Ethanol, intoxication, effect on cardiac lipoprotein lipase activity, 426
role of chloral alcoholate in interaction with chloral hydrate, 602
Extraneuronal accumulation of norepinephrine, inhibition by adrenergic blocking agents, 107

Facilitating drugs, interactions with depolarizing drugs at neuromyal junction, 55

Farah, A., *see* Gussin, R. Z., 606
Farr, W. C. and Grupp, G., 528
Fleisher, J. H., Harris, L. W. and Murtha, E. F., 345
Fleming, W. W., *see* Green, R. D., III, 207
Fluoroacetate, effects on interval-strength relationships in ventricular strips, 166
Fortney, S. R., Clark, D. A. and Stein, E., 277
Fowler, N. O., *see* Bariso, C. R., 294
Frazier, D. T. and Boyarsky, L. L., 1
Fukusumi, H., *see* Bariso, C. R., 294
Furazolidone, anti-monoamine oxidase effects of, 492
Furosemide, mode of action, comparison with hydrochlorothiazide, 616

Gaffney, T. E., *see* Bariso, C. R., 294
Ganglion blockade, effect of sympathectomy and adrenalectomy on, 215
Gardier, R. W., *see* Carter, V. L., Jr., 232
Gasoi, I., *see* Hosein, E. A., 565
Gastric secretion, responses to adrenergic blocking agents, 142
Gavitt, J., *see* Smith, A. A., 85
Gessner, P. K. and Cabana, B. E., 602
Gey, K. F., *see* Thoenen, H., 246
Giles, R. E. and Miller, J. W., 201
Gillenwater, J. Y. and Webster, G. D., 366
Gluconeogenesis, inhibition in rats by hydrazine administration, 277
Glycoprotein, accumulation in salivary gland, effect of reserpine, 483
Goldberg, L. I., *see* Meyer, M. B., 186
Goldman, M., *see* Latz, A., 76
Gomoll, A. W., 300
Gonadotrophin secretion, relationship to hypothalamic catecholamines, 258
Gorodetzky, C. W., *see* Kay, D. C., 101
Goth, A., *see* Isaac, L., 463
Govier, W. C. and Boadle, M. C., 339
Gray, W. D. and Rauh, C. E., 383
Green, R. D., III and Fleming, W. W., 207
Grupp, G., *see* Farr, W. C., 528

Hanna, C., *see* Schmid, J. R., 331
Hardman, H. F., *see* Mohammed, S., 221
Harris, L. W., *see* Fleisher, J. H., 345
Haugaard, N., *see* Reynolds, R. C., 417
Heart, action of lysolecithin on, 339
amine-depleted, effect of stress upon performance of, 294
Heller, A., *see* Moore, R. Y., 12
Hemicholinium derivative, potentiation of actions of catecholamines by, 469
Hemodynamics, renal effects of dopamine, 186
Herman, E. H. and Barnes, C. D., 48
Hilton, J. G., *see* Steinberg, M., 215
Histamine, drug-induced release and pharmacodynamic effects in guinea-pig heart, 522
in isolated small nerve endings and synaptic vesicles of rat brain cortex, 114
Hollifield, R. D., *see* Stern, I. J., 492
Holmes, J., *see* Bariso, C. R., 294
Hosein, E. A., Booth, S. J., Gasoi, I. and Kato, G., 565
Huerlimann, A., *see* Thoenen, H., 246
Hydrazine, as inhibitor of gluconeogenesis, 277
Hydrochlorothiazide, mode of action, comparison with furosemide, 616
5-Hydroxytryptamine, intestinal, release by morphine and related agents, 267
Hyperpolarization, posttetanic, of intramedullary nerve terminals, effect of diphenylhydantoin on, 591
Hypertensive response, produced by acetylcholine, resulting in sympathetic activity, 232
Hypnotic agents, method for evaluation in man, 375
Hypothalamus, catecholamine levels of, relation to gonadotrophin secretion, 258
effects of lesions on monoamine levels and neuronal degeneration in rat brain, 12
Hypothermia, chlorpromazine-evoked relation to disruption of conditioned avoidance-escape behavior, 397

Imai, S. and Takeda, K., 557
Imidazole, action on effects of methylxanthines and catecholamines in guinea-pig heart, 514
Interval-strength relationships in ventricular strips, effects of fluoroacetate, 166
Intestines, release of 5-hydroxytryptamine by morphine, 267
Iproveratril, antiarrhythmic effects of, comparison with quinidine and pronethalol, 331
Isaac, L. and Goth, A., 463
Isomers, of methoxamine and isopropylmethoxamine, *beta* adrenergic blocking effects of, 445
Isopropylmethoxamine, isomers of, *beta* adrenergic blocking effects of, 445
Isoproterenol, effects on human uterus, 178

Kaliuresis, induced by chlorothiazide, after adrenalectomy, 366
Karczmar, A. G., *see* Blaber, L. C., 55

CONTENTS OF VOLUME 156

No. 1, April 1967

Cholinergic Properties of the Relay Junctions of the Primary Afferent Pathway. D. T. Frazier and L. L. Boyarsky 1

Monoamine Levels and Neuronal Degeneration in Rat Brain following Lateral Hypothalamic Lesions. Robert Y. Moore and Alfred Heller 12

Localization of Tritiated Serotonin in Rat Brain by Electron-Microscopic Autoradiography. George K. Aghajanian and Floyd E. Bloom 23

The Effect of Drugs on the Release of Norepinephrine-H^3 from Central Nervous System Tissues by Electrical Stimulation *in Vitro*. Ross J. Baldessarini and Irwin J. Kopin 31

Pharmacologic Studies of Norepinephrine, Acetylcholine and Related Compounds on Neurons in Deiters' Nucleus and the Cerebellum. C. Yamamoto 39

Drug Modification of the Schiff-Sherrington Phenomenon. Eugene H. Herman and Charles D. Barnes 48

Interaction between Facilitating and Depolarizing Drugs at the Neuromyal Junction of the Cat. L. C. Blaber and A. G. Karczmar 55

Modification of the Effects of Tranquilizers in Animals Treated with α-Methyl-*l*-Tyrosine. M. K. Menon, P. C. Dandiya and J. S. Bapna 63

Antagonism by Monoamine Oxidase Inhibitors of α-Methyltyrosine-Induced Catecholamine Depletion and Behavioral Depression. Kenneth E. Moore and Richard H. Rech 70

Maze Learning after the Administration of Antidepressant Drugs. Arje Latz, G. Bain, M. Goldman and C. Kornetsky 76

Tolerance to the Lenticular Effects of Opiates. Alfred A. Smith, Meta Karmin and JoAnn Gavitt 85

Morphine and the Incorporation of P_i^{32} into Brain Phospholipids of Nontolerant, Tolerant and Abstinent Guinea Pigs. S. J. Mulé 92

Comparative Effects of Codeine and Morphine in Man. D. C. Kay, C. W. Gorodetzky and W. R. Martin 101

Inhibition of the Extraneuronal Accumulation and Metabolism of Norepinephrine by Adrenergic Blocking Agents. Arnold J. Eisenfeld, Julius Axelrod and Lawrence Krakoff 107

Histamine in Isolated Small Nerve Endings and Synaptic Vesicles of Rat Brain Cortex. K. Kataoka and E. De Robertis 114

Changes in the Sensitivity of the Sweat Glands of the Cat after Denervation. H. W. Reas and U. Trendelenburg 126

The Relation between Norepinephrine Content and Response to Sympathetic Nerve Stimulation of Various Organs of Cats Pretreated with Reserpine. F. L. Lee 137

Gastric Secretory Responses to Drugs Affecting Adrenergic Mechanisms in Rats. Paul Bass and Margaret A. Patterson 142

A Pharmacologic Analysis on the Significance of the Chemical Functional Groups of Oxytocin to Its Oxytocic Activity and on the Effect of Magnesium on the *in Vitro* and *in Vivo* Oxytocic Activity of Neurohypophysial Hormones. W. Y. Chan and Nancy Kelley 150

The Capacity of Different Digitalis Materials to Induce Ventricular Rhythm Disturbances in the Reserpine-Pretreated Cat. Barrie Levitt and Jay Roberts 159

A Mathematical Analysis of the Interval-Strength Relationship in the Rat Ventricle Strip and Its Modification by Fluoroacetate. Christian J. Posner and David A. Berman 166

The *in Vivo* Effects of *Beta* Adrenergic Stimulation and Blockade on the Human Uterus at Term. W. A. Mahon, D. W. J. Reid and R. A. Day 178

Effects of Dopamine on Renal Function and Hemodynamics in the Dog. M. B. Meyer, John L. McNay and Leon I. Goldberg 186

A Biochemical Basis for the Renal Activity of N-7-Acetylchlorothiazide. D. E. Duggan 193

No. 2, May 1967

A Comparison of Certain Properties of Catechol-O-Methyl Transferase to Those of Adrenergic *Beta* Receptors. Ralph E. Giles and Jack W. Miller 201
Agonist-Antagonist Interactions in the Normal and Supersensitive Nictitating Membrane of the Spinal Cat. Richard D. Green, III and William W. Fleming ... 207
Effect of Sympathectomy and Adrenalectomy upon Ganglion Blockade. Marshall Steinberg and James G. Hilton 215
Mechanism of the Vasodilator Response to Pheniprazine. Shakil Mohammed, Harold F. Hardman and Albert C. Yard 221
The Stimulation of Canine Prostatic Secretion by Sympathomimetic Amines. Emil R. Smith 227
Investigation of Sympathetic Activity Resulting from a Dose of Acetylcholine Producing a Hypertensive Response. V. L. Carter, Jr., D. L. Traber and R. W. Gardier 232
Structure-Activity Relationships among a Series of Acetylenic Carbamates Related to McN-A-343. Adolph P. Roszkowski and John Yelnosky 238
Quantitative Aspects of the Replacement of Norepinephrine by Dopamine as a Sympathetic Transmitter after Inhibition of Dopamine-β-Hydroxylase by Disulfiram. H. Thoenen, W. Haefely, K. F. Gey and A. Huerlimann 246
Stimulation of the Catecholamine Output of the Isolated, Perfused Adrenal Gland of the Dog by Angiotensin and Bradykinin. Robert L. Robinson 252
Relationship between Hypothalamic Catecholamines and Gonadotrophin Secretion in Rats. W. Lippmann, R. Leonardi, J. Ball and J. A. Coppola 258
Release of Intestinal 5-Hydroxytryptamine by Morphine and Related Agents. T. F. Burks and J. P. Long 267
Inhibition of Gluconeogenesis by Hydrazine Administration in Rats. Sidney R. Fortney, Dale A. Clark and Eduardo Stein 277
Pharmacokinetics of Salicylamide Elimination in Man. Gerhard Levy and Tai Matsuzawa 285
The Effect of Stress upon the Performance of the Amine-Depleted Heart. C. R. Bariso, T. E. Gaffney, H. Fukusumi, J. Holmes, N. O. Fowler and E. C. Conradi 294
Influence of Ouabain on the Formation of Corticosterone in the Rat Adrenal Gland. Allen W. Gomoll 300
Effects of Dopamine and α-Methyl-Dopamine on Smooth Muscle and on the Cardiac Pacemaker. T. H. Tsai, S. Z. Langer and U. Trendelenburg 310
Cardiovascular and Myocardial Metabolic Effects of Infusions of Phenylephrine. Philip J. Privitera and Ira Rosenblum 325
A Comparison of the Antiarrhythmic Actions of Two New Synthetic Compounds, Iproveratril and MJ 1999, with Quinidine and Pronethalol. Jack R. Schmid and Calvin Hanna 331
The Cardiac Action of Lysolecithin. William C. Govier and Margaret C. Boadle 339
Reactivation by Pyridinium Aldoxime Methochloride (PAM) of Inhibited Cholinesterase Activity in Dogs after Poisoning with Pinacolyl Methylphosphonofluoridate (Soman). Joseph H. Fleisher, Larrel W. Harris and Edmund F. Murtha 345
Malathion Inhibition of Esterases as a Determinant of Malathion Toxicity. Sheldon D. Murphy 352
Chlorothiazide-Induced Kaliuresis after Adrenalectomy. Jay Y. Gillenwater and George D. Webster 366
The Use of a Clinical Whole-Body Counter in Long-Term Exchangeable Sodium Studies for the Comparison of the Effect of Different Diuretics. C. Constantinides, D. Binopoulos and B. Malamos 369

A Method for the Evaluation of Hypnotic Agents in Man. The Comparative Hypnotic Effects of Secobarbital, Methaqualone and a Placebo in Normal Subjects and in Psychiatric Patients. S. S. Bloomfield, L. Tetreault, B. Lafrenier and J. M. Bordeleau 375
The Anticonvulsant Action of Inhibitors of Carbonic Anhydrase: Site and Mode of Action in Rats and Mice. William D. Gray and Charles E. Rauh 383
Relation of Chlorpromazine-Evoked Hypothermia to Disruption of Conditioned Avoidance-Escape Behavior. Thomas A. Rudy and Harold H. Wolf 397

No. 3, June 1967

Electron-Microscopic Localization of Tritiated Norepinephrine in Rat Brain: Effect of Drugs. G. K. Aghajanian and F. E. Bloom 407
The Effect of Variations of pH upon the Activation of Phosphorylase by Epinephrine in Perfused Contracting Heart, Liver Slices and Skeletal Muscle. Robert C. Reynolds and Niels Haugaard 417
Effect of Ethanol Intoxication and Catecholamines on Cardiac Lipoprotein Lipase Activity in Rats. Samuel Mallov and Frank Cerra 426
Steric Aspects of Adrenergic Drugs. V. *Beta* Adrenergic Blocking Effects of Optical Isomers of Methoxamine and Isopropylmethoxamine. P. N. Patil, A. Tye and J. B. LaPidus 445
A Comparison of the Adrenergic Receptor Blocking Properties of 1-(4′-Methylphenyl)-2-Isopropylamino-Propanol-HCl and Propranolol. Bernard Levy 452
The Mechanism of the Potentiation of Norepinephrine by Antihistaminics. Lawrence Isaac and Andres Goth 463
Potentiation of Actions of Catecholamines by a Derivative of Hemicholinium. S. Wong and J. P. Long 469
A New Effect of Reserpine: Accumulation of Glycoprotein in the Submaxillary Gland. Palmer W. Taylor, Jr., Keith C. Richardson, Patricia M. Roddy and Elwood Titus 483
The Anti-Monoamine Oxidase Effects of Furazolidone. Ivan J. Stern, Richard D. Hollifield, Sherwin Wilk and James A. Buzard 492
A Radiometric Microassay of Acetylcholinesterase. Lincoln T. Potter 500
Resistance to the Effect of Carbachol on the Cardiovascular System and on the Isolated Ileum of Rats after Subacute Administration of an Organophosphorus Cholinesterase Inhibitor. Joseph J. McPhillips and Mohammed S. Dar 507
The Action of Imidazole on the Effects of Methylxanthines and Catecholamines on Cardiac Contraction and Phosphorylase Activity. Walther R. Kukovetz and Gerald Pöch 514
Drug-Induced Release and Pharmacodynamic Effects of Histamine in the Guinea-Pig Heart. Gerald Pöch and Walther R. Kukovetz 522
Sympathetically Mediated Effects of Angiotensin on the Dog Heart *in Situ*. William C. Farr and Gunther Grupp 528
Cardiovascular Effects of Prostaglandin E_1. Jiro Nakano and J. Richard McCurdy 538
The Metabolic Fate of Tritiated Digoxin in the Dog: A Comparison of Digitalis Administration with and without a "Loading Dose." Frank I. Marcus, Josee Pavlovich, Linda Burkhalter and Carol Cuccia 548
Effect of Vasodilators upon the Isolated Taenia Coli of the Guinea Pig. Shoichi Imai and Keisuke Takeda 557
Neuromuscular Blocking Activity and other Pharmacologic Properties of Various Carnitine Derivatives. E. A. Hosein, Sandra J. Booth, Ivan Gasoi and Gabor Kato 565
Differences in the Tubocurarine Antagonism of the Activation of Muscle Spindle Afferents by Succinylcholine, Acetylcholine and Nicotine. Cedric M. Smith and Edwin X. Albuquerque 573
Studies on Morphine Tolerance in Mice. I. *In Vivo* N-Demethylation of Morphine and N- and O-Demethylation of Codeine. T. K. Adler 585

An Effect of Diphenylhydantoin on Posttetanic Hyperpolarization of Intramedullary Nerve Terminals. ARTHUR RAINES AND FRANK G. STANDAERT 591
A Comparsion of the Effects of Phenobarbital and Pentobarbital on Motor Cortical Threshold and Righting Reflex Response in the Cat. ROBERT N. STRAW AND C. L. MITCHELL 598
Chloral Alcoholate: Reevaluation of Its Role in the Interaction between the Hypnotic Effects of Chloral Hydrate and Ethanol. PETER K. GESSNER AND BERNARD E. CABANA 602
Alkylating Agents and the Effects of Antidiuretic Hormone in the Toad Bladder ROBERT Z. GUSSIN, ULRIKE MIKSCHE AND ALFRED FARAH 606
Furosemide and Hydrochlorothiazide Do Not Have a Common Mode of Action. ALFRED SMALL AND EDWARD J. CAFRUNY 616
Erratum 622
Index, Volume 156, April–June 1967 623

VOLUME 157 JULY–SEPTEMBER 1967

THE JOURNAL OF
Pharmacology
AND EXPERIMENTAL THERAPEUTICS

FOUNDED BY JOHN J. ABEL 1909

Official Publication of The American Society for Pharmacology and Experimental Therapeutics, Inc.

EDITOR
J. B. KAHN, JR.

INDEX

Volume 157, July–September 1967

Abel, M. and Talbot, R. B., 207
H^3-Acetic anhydride, acetylation, estimation of desipramine, 503
Acetylation, with H^3-acetic anhydride, estimation of desipramine, 503
Acetylcholine, release from superior cervical ganglion by carbachol and nerve stimulation, effects of drugs, 319, 328
Acetylcholinesterase, and norepinephrine, localization in neurons of guinea-pig vas deferens, 69
Acetylsalicyclic acid, effect on response to endotoxin, 665
Acids, diffusion into milk, 245
Addiction potential, of naloxone, 420
Adenosine triphosphatase, receptor for diuretic action of mercurials and ethacrynic acid, 599
Adrenergic receptor, blockade and norepinephrine overflow, 125
  effects of ephedrine isomers, 356
Amiloride (N-amidino-3,5-diamino-6-chloropyrazine carboxamide hydrochloride dihydrate), natriuretic and potassium-sparing effects, 472
Amines, biogenic, potentiation and antagonism, 143
  sympathomimetic, influence, of WY-5244, 32
  sympathomimetic, nictitating membrane response, 517
γ-Aminobutyric acid, in brain, correlation with picrotoxin-induced seizures, 546
Anesthetics, local, effects on muscle coupling systems, 388
Angiotensin, effects on erythropoietin production, 618
Anorexic agent, WY-5244, cardiovascular actions and influence on sympathomimetic amines, 32
Antagonism, of biogenic amines in chicks, 143
Antagonists, morphine, effect on schedule-controlled behavior, 175
  vitamin K, 2-chloro-3-phytyl-1,4-naphthoquinone, 672
Anticoagulants, coumarin, mechanism of action, 672
Anti-inflammatory agents, treatment of periarthritis from sulfanilamidoindazole, 214
Aoki, V. S., Wilson, W. R., Theilen, E. O., Lukensmeyer, W. W. and Leaverton, P. E., 62
Aorta, autoinhibition following epinephrine, 303
Aronson, A. L., *see* Hammond, P. B., 196
Autoinhibition, in aortic strips, after epinephrine, 303

Byvoet, P., *see* Clarkson, D. R., 581
Calcium, movements in rabbit atria, 8
Carbachol, entry into brain, effects of *d*-tubocurarine and strychnine, 406
  release of acetylcholine in ganglia, effects of drugs, 319, 328
Cardiovascular actions of WY-5244, 32
Cardiovascular effects of lysine vasopressin, 19
Catechol-O-methyl transferase inhibition, effect on inotropic actions of catecholamines, 55
Catecholamines, development of supersensitivity, in nictitating membrane, 255
  disappearance from denervated nictitating membrane, 284
  effect of inhibition of catechol-O-methyl transferase on inotropic actions, 55
  influence of metanephrine on response of nictitating membrane, 517
  levels, effect of methotrimeprazine, 363
  levels, in brain, effects of disulfiram, 96

levels, in heart, influence of sympathetic nerve activity, 74
metabolism, changes with age, 509
storage, changes with age, 509
Central nervous system, sulfate entry, effect of strychnine conclusions, 555
de Champlain, J., *see* Iverson, L. L., 509
Chinoy, D. A., *see* Nechay, B. R., 599
2-Chloro-3-phytyl-1,4-naphthoquinone, antagonism of vitamin K, 672
Chlorpromazine, metabolism, by liver microsomal enzymes, 446
Clarkson, D. R., Oppelt, W. W. and Byvoet, P., 581
Clostridium botulinum toxin, effects of serotonin, 427
Coccia, P. F. and Westerfield, W. W., 446
Cohen, E. N., Rubinstein, L. J., Corbascio, A. N., and Hood, N., 170
Conney, A. H., *see* Kuntzman, R., 220
Constriction, renal artery, effects on erythropoietin production, 618
Contractility, cardiac, relation to calcium exchange in atria, 8
relation to intracellular depolarization rate, 1
Convulsions, strychnine, effect on entry of S^{35} sulfate in central nervous system, 555
Corbascio, A. N., *see* Cohen, E. N., 170
Costa, E., *see* Boullin, D. J., 125
Coumarin, anticoagulants, mechanism of action, 672
Creese, R. and Taylor, D. B., 406

Denervation, of nictitating membrane, loss of catecholamines, 284
supersensitivity of nictitating membrane, histochemical and structural aspects, 274
Depolarization rate of cardiac muscle, relation to contractile force, 1
Desipramine, measurement of blood level by isotope derivative technique, 503
Dhalla, N. S., 135
Dichloroisoproterenol, mechanism of sympathomimetic effects compared with tyramine, nicotine and norepinephrine, 135
Diffusion, of weak acids and bases into milk, 245

CONTENTS OF VOLUME 157

No. 1, July 1967

The Relationship of Intracellular Depolarization Rates and Contractility in the Dog Ventricle *in Situ:* Effects of Positive and Negative Inotropic Agents. Jack K. Pruett and Eugene F. Woods 1

Calcium Movements in Resting and Stimulated Isolated Rabbit Atria. David G. Teiger and Alfred Farah 8

Studies on the Cardiovascular Effects of Synthetic Vasopressin. Jiro Nakano 19

A New Anorexic Agent, Wy-5244: Cardiovascular Actions and Influence on Sympathomimetic Amines. Thomas Baum and Melvin I. Gluckman 32

Increased Sympathetic Vasoconstrictor Tone in Dogs Treated Chronically with Mecamylamine. H. Vidrio and E. G. Pardo 42

The Negative Inotropic Action of Ephedrine and Its Modification by Various Agents. Alan M. Goldberg and F. E. Shideman 49

Studies on the Potentiation of the Inotropic Actions of Certain Catecholamines by U-0521 (3′,4′-Dihydroxy-α-Methyl Propiophenone). Ralph E. Giles and Jack W. Miller 55

The Effects of Triiodothyronine on Hemodynamic Responses to Epinephrine and Norepinephrine in Man. Vincent S. Aoki, William R. Wilson, Ernest O. Theilen, William W. Lukensmeyer and Paul E. Leaverton 62

Localization of Norepinephrine and Acetylcholinesterase in Separate Neurons Supplying the Guinea-Pig Vas Deferens. Christopher Bell and John R. McLean 69

The Influence of Sympathetic Nervous Activity on Cardiac Catecholamine Levels. B. Bhagat 74

Monoamine Oxidase Inhibiting Properties of Su-11, 739 in the Rat. Comparison with Pargyline, Tranylcypromine and Iproniazid. L. Maître 81

Effect of Monoamine Oxidase Inhibition on Biliary Excretion of Metabolites of Norepinephrine by Isolated Rat Liver. Richard P. Zimon, Gertrude M. Tyce, Eunice V. Flock, Sheldon G. Sheps and Charles A. Owen, Jr. 89

The Effect of Disulfiram on Catecholamine Levels in the Brain. Menek Goldstein and Kazuhiko Nakajima 96

The Sympathetic Nervous System as a Homeostatic Mechanism. I. Absolute Need for Sympathetic Nervous Function in Body Temperature Maintenance of Cold-Exposed Rats. R. P. Maickel, N. Matussek, D. N. Stern and B. B. Brodie 103

The Sympathetic Nervous System as a Homeostatic Mechanism. II. Effect of Adrenocortical Hormones on Body Temperature Maintenance of Cold-Exposed Adrenalectomized Rats. R. P. Maickel, D. N. Stern, E. Takabatake and B. B. Brodie 111

Sympathetic Nerve-Free Vascular Muscle. J. A. Bevan and M. A. Verity 117

Evidence that Blockade of Adrenergic Receptors Causes Overflow of Norepinephrine in Cat's Colon after Nerve Stimulation. David J. Boullin, E. Costa and B. B. Brodie 125

Mechanisms of Sympathomimetic Effects of Dichloroisoproterenol: Comparison with Tyramine, Nicotine and Norepinephrine. Naranjan S. Dhalla 135

Potentiation and Antagonism of Biogenic Amines. Felix J. Rauzzino and Joseph Seifter 143

Effect of Morphine on Electrically-Induced Release of Autonomic Mediators in the Rabbit Sinoatrial Node. Barbara L. Kennedy and Theodore C. West 149

Antiparasympathomimetic Effects of Cholinesterase Inhibitor Treatment. Laszlo Z. Bito, Kelly Hyslop and John Hyndman 159

Localization of *d*-Tubocurarine-H^3 at the Motor Endplate. Ellis N. Cohen, Lucien J. Rubinstein, Aldo N. Corbascio and Nancy Hood 170

Some Effects of Morphine and Morphine Antagonists on Schedule-Controlled Behavior. D. E. McMillan and W. H. Morse 175

A Comparison of the Pharmacologic Effects of Morphine and N-Methyl Morphine. R. S. Foster, D. J. Jenden and Peter Lomax 185

The Mechanism of Mobilization of Lead by Ethylenediaminetetraacetate. P. B. Hammond, A. L. Aronson and W. C. Olson 196

Gadolinium Oxide Inhalation by Guinea Pigs: A Correlative Functional and Histopathologic Study. Michael Abel and R. B. Talbot 207

Induction of Periarthritis by Oral Administration of 6-Sulfanilamidoindazole and Its Treatment in Rats. E. B. Sigg, M. L. Graeme and M. John 214
A Sensitive Method for the Determination and Isolation of Pentobarbital-C^{14} Metabolites and Its Application to *in Vitro* Studies of Drug Metabolism. R. Kuntzman, M. Ikeda, M. Jacobson and A. H. Conney 220
The Effect of Phenobarbital on Drug Metabolic Enzyme Activity, Ultrastructure and Growth of a "Minimal Deviation" Hepatoma (Morris 7800). Larry A. Rogers, H. P. Morris and James R. Fouts 227
Diffusion of Certain Weak Organic Acids and Bases across the Bovine Mammary Gland Membrane after Systemic Administration. G. E. Miller, N. C. Banerjee and C. M. Stowe, Jr. 245

No. 2, August 1967

Time Course of the Development of Supersensitivity to Various Amines in the Nictitating Membrane of the Pithed Cat after Denervation or Decentralization. S. Z. Langer, P. R. Draskóczy and U. Trendelenburg 255
Histochemical and Fine Structural Aspects of the Onset of Denervation Supersensitivity in the Nictitating Membrane of the Spinal Cat. L. S. Van Orden, III, K. G. Bensch, S. Z. Langer and U. Trendelenburg 274
Demonstration by the Histochemical Fluorescence Method of the Prolonged Disappearance of Catecholamines from the Denervated Nictitating Membrane of the Cat. N. Weiner, S. Z. Langer and U. Trendelenburg 284
The Effect of Reserpine upon the Synthesis of Norepinephrine in the Isolated Rabbit Heart. Charles O. Rutledge and Norman Weiner 290
Autoinhibition in Rabbit Aortic Strips after Epinephrine. Efraín G. Pardo, Enrique Hong and Jacques LeLorier 303
The Effects of Pentobarbital on the Fate of Intracisternally Administered Norepinephrine-H^3. Saul M. Schanberg, Joseph J. Schildkraut and Irwin J. Kopin 311
Acetylcholine Release from the Cat Superior Cervical Ganglion by Carbachol. Doris N. McKinstry and George B. Koelle 319
Effects of Drugs on Acetylcholine Release from the Cat Superior Cervical Ganglion by Carbachol and by Preganglionic Stimulation. Doris N. McKinstry and George B. Koelle 328
Nonmuscarinic Stimulation and Block of a Sympathetic Ganglion by 4-(*m*-Chlorophenylcarbamoyloxy)-2-Butynyltrimethylammonium Chloride (McN-A-343). Jorge Jaramillo and Robert L. Volle 337
Actions of Lithium Ions in Mammalian Sympathetic Ganglia. Achilles J. Pappano and Robert L. Volle 346
Steric Aspects of Adrenergic Drugs. VI. *Beta* Adrenergic Effects of Ephedrine Isomers. A. Tye, R. Baldesberger, J. B. LaPidus and P. N. Patil 356
Effects of Methotrimeprazine, Other Phenothiazines and Related Compounds on the Levels of Norepinephrine in the Mouse Heart. W. Lippmann and M. Wishnick 363
Insulin Stimulation of Lactate Oxidation and Incorporation into Glycogen in Frog Skeletal Muscle. D. R. H. Gourley and Tae Kyu Suh 371
The Development of Resistance to a Potent Lipolysis Inhibitor, 3-Methylisoxazole-5-Carboxylic Acid. Joseph N. Pereira and Gerald F. Holland 381
Action of Local Anesthetics on Coupling Systems in Muscle. C. Paul Bianchi and T. C. Bolton 388
Entry of Labeled Carbachol in Brain Slices of the Rat and the Action of *d*-Tubocurarine and Strychnine. R. Creese and D. B. Taylor 406
The Human Pharmacology and Abuse Potential of N-Allylnoroxymorphone (Naloxone). D. R. Jasinski, W. R. Martin and C. A. Haertzen 420
Effects of Serotonin on the Toxin of *Clostridium Botulinum*. Daniel A. Boroff and Ursula Fleck 427
Prophylaxis against Sarin Poisoning in the Rat by Oral Administration of Pralidoxime Chloride. Peter Zvirblis and Albert A. Kondritzer 432
Effect of Pretreatment of Rabbits with Phenobarbital or 3-Methylcholanthrene on the Distribution of Drug-Metabolizing Enzyme Activity in Subfractions of Hepatic Microsomes. Theodore E. Gram, Larry A. Rogers and James R. Fouts 435
The Metabolism of Chlorpromazine by Liver Microsomal Enzyme Systems. Peter F. Coccia and W. W. Westerfeld 446

Intracellular Disposition of H^3-Morphine in the Brain and Liver of Nontolerant and Tolerant Guinea Pigs. S. J. Mulé, C. M. Redman and J. W. Flesher 459
The Potassium-Sparing and Natriuretic Activity of N-Amidino-3,5-Diamino-6-Chloropyrazinecarboxamide Hydrochloride Dihydrate (Amiloride Hydrochloride). J. E. Baer, C. B. Jones, S. A. Spitzer and H. F. Russo 472
Erratum 405

No. 3, September 1967

Photic and Neural Control of the 24-Hour Norepinephrine Rhythm in the Rat Pineal Gland. Richard J. Wurtman, Julius Axelrod, Göran Sedvall and Robert Y. Moore 487
Metabolic Pathways of Dopamine and Norepinephrine in Rabbit Brain *in Vitro*. Charles O. Rutledge and Jan Jonason 493
Application of Isotope Derivative Technique to Assay of Secondary Amines: Estimation of Desipramine by Acetylation with H^3-Acetic Anhydride. Wolfgang M. Hammer and Bernard B. Brodie 503
Uptake, Storage and Metabolism of Norepinephrine in Tissues of the Developing Rat. Leslie L. Iversen, Jacques de Champlain, Jacques Glowinski and Julius Axelrod 509
Influence of Metanephrine on Responses of the Nictitating Membrane of the Pithed Cat to Sympathomimetic Amines. S. Z. Langer, M. G. Bogaert and A. F. de Schaepdryver 517
The Effects of Sympathetic Stimulation and Epinephrine on the Superior Rectus Muscle of the Cat. Kenneth E. Eakins and Ronald L. Katz 524
Potentiation by Tetraethylammonium of the Response of the Cat Spleen to Postganglionic Sympathetic Nerve Stimulation. H. Thoenen, W. Haefely and H. Staehelin 532
Effects on Temperature of Serotonin and Epinephrine Injected into the Lateral Cerebral Ventricle of the Cat. A. S. Kulkarni 541
Some Correlations between Picrotoxin-Induced Seizures and γ-Aminobutyric Acid in Animal Brain. Shoji Saito and Yukiko Tokunaga 546
Effect of Strychnine Convulsions upon the Entry of S^{35} Sulfate into the Cat Central Nervous System. Antonio V. Lorenzo and Charles F. Barlow 555
Dependence of *m*-Fluorophenylalanine Toxicity on Phenylalanine Hydroxylase Activity. B. Kenneth Koe and Albert Weissman 565
Metabolism of Trichloroethylene in Liver Microsomes. II. Induction of the Enzymic Activity and Its Effect on Excretion of Metabolites. Kenneth C. Leibman and William J. McAllister, Jr. 574
The Fate of 5-Iodo-2′-Deoxyuridine (IUdR) in Plasma and Cerebrospinal Fluid of Dogs. D. R. Clarkson, W. W. Oppelt and P. Byvoet 581
Further Studies on the Urinary Metabolites of Thiamine Propyl Disulfide in Rats. Kohei Nishikawa, Suzuoki-Ziro and Mitsuo Numata 589
The Problem of $Na^+ + K^+$ Adenosine Triphosphatase as the Receptor for Diuretic Action of Mercurials and Ethacrynic Acid. Bohdan R. Nechay, Roger F. Palmer, David A. Chinoy and Virginia A. Posey 599
Effects of Angiotensin and Renal Artery Constriction on Erythropoietin Production. James W. Fisher, A. I. Samuels and J. W. Langston 618
The Tubular Transport and Metabolism of Morphine-N-Methyl-C^{14} by the Chicken Kidney. David G. May, James M. Fujimoto and Charles E. Inturrisi 626
A Comparison of Antagonists of Physostigmine-Induced Suppression of Behavior. George E. Vaillant 636
Effects of a Hydrazine Monoamine Oxidase Inhibitor (Phenelzine) on Isoproterenol-Induced Myocardiopathies in the Rat. H. C. Stanton and A. Schwartz 649
Effects of Quinidine on Electrical Behavior in Cardiac Muscle. Myron Prinzmetal, Kazuo Ishikawa, Hiroshi Oishi, Emir Ozkan, Jiro Wakayama and James M. Baines 659
Effects of Acetylsalicylic Acid on the Canine Response to Endotoxin. L. B. Hinshaw, L. A. Solomon, E. G. Erdös, D. A. Reins and B. J. Gunter 665
Use of a Competitive Vitamin K Antagonist, 2-Chloro-3-Phytyl-1,4-Naphthoquinone, for the Study of the Mechanism of Action of Vitamin K and Coumarin Anticoagulants. Julius Lowenthal and J. A. MacFarlane 672
Index, Volume 157, July–September 1967 681

VOLUME 158 OCTOBER–DECEMBER 1967

THE JOURNAL OF
Pharmacology
AND EXPERIMENTAL THERAPEUTICS

FOUNDED BY JOHN J. ABEL 1909

Official Publication of The American Society for Pharmacology and Experimental Therapeutics, Inc.

EDITOR
J. B. KAHN, JR.

EXECUTIVE OFFICER
ELLSWORTH B. COOK

ASSISTANT EDITOR
GEORGE T. OKITA

EDITORS FOR SPECIFIC FIELDS

U. TRENDELENBURG: *Autonomic Pharmacology*
BERNARD WEISS: *Behavioral Pharmacology*
HERBERT TABOR: *Biochemical Pharmacology*
HENRY H. SWAIN: *Cardiovascular Pharmacology*
ALBERT SJOERDSMA: *Clinical Pharmacology*
ALLAN H. CONNEY: *Drug Metabolism and Disposition*
WILLIAM R. MARTIN: *Neuropharmacology*

INDEX

Volume 158, October–December 1967

Aceto, M. D., Harris, L. S., Lesher, G. Y., Pearl, J. and Brown, T. G., Jr., 286
Acetylcholine, blockade of positive inotropic effects of epinephrine and theophylline by, 241
effects of ethanol and pentobarbital on release from brain slices, 386
Adenosine triphosphatase, cardiac myosin activity, effects of inotropic drugs, 540
Adrenal medulla, muscarinic transmission of impluses to, 73
release of catecholamines from, 183
Adrenergic *beta* receptor blockade, effect on anesthetic-dopamine arrhythmias, 40
Adrenergic mechanisms, effects of WY-5244, 510
Adrenergic nerve fibers, relation to chromaffin cells and cardiac ganglia, 227
Adrenergic receptors, possible roles in regulation of water intake, 150
AHR-602, characteristics of ganglion blockade by, 80
Alles, G. A., *see* Fairchild, M. D., 135
Amethopterin, action on production of spleen hemolysin plaque-forming cells, 365
Amphetamine, effect on forced eating, 272
effect on ultrastructure and 5-hydroxytryptamine content of blood platelets, 394
poisoning, physiologic and pathologic effects, 115
stimulation of locomotor activity, enhanced by reserpine, 140
Analgesics, and respiratory depression in man, 416
effects on intestinal activity and 5-HT release, 264
Anderson, E. G., Baker, R. G. and Banna, N. R., 405
Anesthetics, effects on cardiac myosin adenosine triphosphatase activity, 540
Angiotensin, influence on effects of tyramine on contractility of isolated atria, 487
peripheral and central components of sympathetic effects, 1
Anorexic agents, pharmacology of WY-5244, 510
Antiarrhythmic effects, of quinidine and propranolol isomers, 11
Antibody response, effect of drugs on, 365
Anticonvulsant action, of carbonic anhydrase inhibitors, 421
Antihypertension, action of diazoxide, 531
Antitumor agents, action on production of spleen hemolysin plaque-forming cells, 365
Arthritis, experimental, pharmacology of indomethacin, 546
Atria, effects of temperature and ouabain on rate of action of calcium in, 22
Autonomic nervous system, role in tachycardia of hyperthyroidism, 55
Aviado, D. M., *see* Klide, A. M., 28
Axelrod, J., *see* Eisenfeld, A. J., 378
see Snyder, S. H., 206

Baker, R. G., *see* Anderson, E. G., 405
Banks, W. F., Jr., *see* McChesney, E. W., 323
Banna, N. R., *see* Anderson, E. G., 405
Barry, K. G., *see* Shinaberger, J. H., 460
Baum, T. and Gluckman, M. I., 510
Bendixen, H. H., *see* Flacke, J. W., 519
Bensch, K. G., *see* Van Orden, L. S., III, 195
Benzothiadiazines, mode of antihypertensive action of diazoxide, 531
7-Benzyl-1-ethyl-1,4-dihydro-4-oxo-1,8-naphthyridine-3-carboxylic acid, pharmacologic studies with, 286
Berry, C. A., *see* Dilts, S. L., 279
Beta-adrenergic blocking agents, effects on oxygen consumption, 399
Biosynthesis, of norepinephrine in nerve tissue, 373
Blood platelets, effects of drugs and cations on ultrastructure and 5-hydroxytryptamine content, 394
Blood-brain barrier, role in transfer of hydroxyindoleacetic acid, 214
Brainstem, monoamine concentrations in, relation to core temperature, 219
Braunwald, E., *see* Parmley, W. W., 11
Bretylium, mechanism of neuromuscular block by, 89
Brodie, B. B., *see* Neff, N. H., 214
Brown, T. G., Jr., *see* Aceto, M. D., 286
Bufotenine, distribution, metabolism and excretion in rats, 340
Burks, T. F. and Long, J. P., 264
Burns, J. J., *see* Kuntzman, R., 332
Bush, M. T., *see* Sanders, E., 340

Cairoli, V. J. and Crout, J. R., 55
Calcium, action on ganglionic afterpotentials, 253
effects of temperature and ouabain on atrial contractile force, 22
Carbachol-induced release, of catecholamines from adrenal medulla, 183
Carbonic anhydrase inhibitors, mode of anticonvulsant action, 421
Cardiac arrhythmias, dopamine-produced, in

anesthetized cats, effects of adrenergic *beta* receptor block, 40
Cardiac ganglia, relation to chromaffin cells and adrenergic nerve fibers, 227
Cardiac glycosides, effects on cardiac myosin adenosine triphosphatase activity, 540
Cardiac norepinephrine, depletion of, 46
Cardiovascular effects, of iproveratril, 504
of reserpine, on vascular electrolytes, 494
of tyramine, influence of angiotensin on, 487
of WY-5244, 510
Carlsson, A., Lundborg, P., Stitzel, R. and Waldeck, B., 175
Carrier, O., Jr., Douglas, B. H., Garrett, L. and Whittington, P. J., 494
Catecholamines, content, importance of catechol-O-methyl transferase, 189
content, of various tissues after U-0521, 189
release from adrenal medulla by carbachol, site of origin, 183
Catechol-O-methyl transferase activity after U-0521, 189
Central locomotor stimulation, and acute toxicity of ephedrine isomers, 135
Cerebral cortex, effect of ethanol and pentobarbital on acetylcholine release from, 386
Chang, C. C., Chen, T. F. and Cheng, H. C., 89
Chen, T. F., *see* Chang, C. C., 89
Cheng, H. C., *see* Chang, C. C., 89
Chloroquine, metabolism in man, 323
Cholinergic drugs, effects on passive avoidance in mice, 279
Chromaffin cells, relation to adrenergic nerve fibers and cardiac ganglia, 227
Circadian rhythm, in serotonin content of rat pineal gland, 206
CL 11,366, anticonvulsant action of, 421
Clayton, L. E., *see* Shinaberger, J. H., 460
Coburn, J. W., *see* Shinaberger, J. H., 460
Collins, R. J., Tang, A. H. and Keasling, H. H., 428
Cowie, J. F., *see* Fraser, A. G., 475
Creveling, C. R., Daly, J. W. and Witkop, B., 46
Crout, J. R., *see* Cairoli, V. J., 55
Cucinell, S. A., *see* Dayton, P. G., 305
2-(Cyclohexylamino)-ethylguanidine sulfate (Su-9707), nonadrenergic effects on smooth muscle, 248
Cyclophosphamide, action on production of spleen hemolysin plaque-forming cells, 365

Daly, J. W., *see* Creveling, C. R., 46
Dayton, P. G., Cucinell, S. A., Weiss, M. and Perel, J. M., 305
Denckla, W. D. and Dewey, H. K., 128
Dewey, H. K., *see* Denckla, W. D., 128
Dextromethorphan, metabolism and excretion in rats, 437
Diazoxide, mode of antihypertensive action, 531
Dichloroisoproterenol, effect on oxygen consumption, 399
3,5-Dihydroxy-4-methoxyphenethylamine, and related compounds as releasers of cardiac norepinephrine, 46
Dilts, S. L. and Berry, C. A., 279
Diuresis, produced by isosorbide, 460
Diuretics, effects on renal iodide excretion, 294
Dopamine-produced cardiac arrhythmias in anesthetized cats, prevention of, 40
Dose-dependence, of plasma levels of drugs in dogs, 305
Douglas, B. H., *see* Carrier, O., Jr., 494
Downes, J. J., Kemp, R. A. and Lambertsen, C. J., 416

Eakins, K. E., *see* Katz, R. L., 40
Eating, elicited by hypothalamic stimulation, effect of amphetamine, 272
Eckhardt, S. B., *see* Maxwell, R. A., 248
Egle, J. L., Jr., Meredith, J. H. and Little, J. M., 399
Eisenfeld, A. J., Landsberg, L. and Axelrod, J., 378
Elder, J. T., *see* Shellenberger, M. K., 219
Electrolytes, in vascular tissue, effect of reserpine, 494
Electron-microscopy, studies of 5-hydroxytryptamine in neoplastic mast cells, 195
Enzymes, microsomal drug-metabolizing, effects of NADPH-generating system, 317
Ephedrine, isomers, central stimulation and acute toxicity in mice, 135
Epinephrine, blockade of positive inotropic effects by acetylcholine, 241
Ethacrynic acid, renal effect in chickens, 471
Ethanol, effect on release of acetylcholine from brain slices, 386
Euler, U. S. von, *see* Roth, R. H., 373

Fairchild, M. D. and Alles, G. A., 135
Fasco, M. J., *see* McChesney, E. W., 323
Fentanyl, and respiratory depression in man, 416
Flacke, J. W., Osgood, P. F. and Bendixen, H. H., 519
Fouts, J. R., *see* Gram, T. E., 317
Fraser, A. G., Cowie, J. F., Lambie, A. T. and Robson, J. S., 475
Fregly, M. J., *see* McCarthy, J. S., 294
Furosemide, effects on urine osmolality and renal tissue composition, 475

Ganglionic afterpotentials, similarities in the actions of potassium and calcium ions on, 253
Ganglionic blockade, by methacholine, 66
by muscarine, oxotremorine and AHR-602, 80
Garrett, L., *see* Carrier, O., Jr., 494

Giarman, N. J., *see* Van Orden, L. S., III, 195

CONTENTS OF VOLUME 158

No. 1, October 1967

Evaluation of Peripheral and Central Components of Action of Angiotensin on the Sympathetic Nervous System. B. G. Zimmerman 1

Comparative Myocardial Depressant and Antiarrhythmic Properties of *d*-Propranolol, *dl*-Propranolol and Quinidine. William W. Parmley and Eugene Braunwald .. 11

Effects of Temperature and Ouabain on the Rate of Action of Calcium on Atrial Contractions. Sandra Sabatini-Smith and William C. Holland 22

Mechanism for the Reduction in Pulmonary Resistance Induced by Halothane. Alan M. Klide and Domingo M. Aviado 28

Effects of Halothane on the Sino-Atrial Node. Otto Hauswirth and Hansjürg Schaer 36

Anesthetic-Dopamine Cardiac Arrhythmias and Their Prevention by *Beta* Adrenergic Blockade. Ronald L. Katz, Clyde O. Lord and Kenneth E. Eakins 40

The Depletion of Cardiac Norepinephrine by 3,5-Dihydroxy-4-Methoxyphenethylamine and Related Compounds. C. R. Creveling, J. W. Daly and B. Witkop ... 46

Role of the Autonomic Nervous System in the Resting Tachycardia of Experimental Hyperthyroidism. Vincent J. Cairoli and J. Richard Crout 55

On the Mechanism of Ganglionic Blockade by Methacholine. Robert L. Volle 66

Muscarinic Transmission of Preganglionic Impulses to the Adrenal Medulla of the Cat. F.-L. Lee and U. Trendelenburg 73

Ganglion Blockade by Muscarine, Oxotremorine and AHR-602. Jorge Jaramillo and Robert L. Volle 80

On the Mechanism of Neuromuscular Blocking Action of Bretylium and Guanethidine. C. C. Chang, T. F. Chen and H. C. Cheng 89

The Rate of Action of Competitive Neuromuscular Blocking Agents. D. R. Waud 99

The Pathophysiology of Acute Amphetamine Poisoning with Pathologic Correlation. Edwin G. Zalis, George D. Lundberg and Richard A. Knutson 115

Tryptamine Toxicity in Adrenalectomized Rats; Its Prevention with Tryptamine and Hydrocortisone. W. D. Denckla and H. K. Dewey 128

The Central Locomotor Stimulatory Activity and Acute Toxicity of the Ephedrine and Norephedrine Isomers in Mice. M. D. Fairchild and G. A. Alles 135

Enhanced Stimulant Effects of *d*-Amphetamine on the Spontaneous Locomotor Activity of Rats Treated with Reserpine. J. M. Stolk and R. H. Rech 140

Copious Drinking and Simultaneous Inhibition of Urine Flow Elicited by *Beta*-Adrenergic Stimulation and Contrary Effect of *Alpha*-Adrenergic Stimulation. David Lehr, Jane Mallow and Marilyn Kr[illegible]kowski 150

The Distribution of Thiopental-2-C^{14} in Maternal and Fetal Tissues of the Rat. Paul J. Schechter and Lloyd J. Roth 164

Errata 174

No. 2, November 1967

Uptake, Storage and Release of H^3-α-Methyl-Norepinephrine. Arvid Carlsson, Per Lundborg, Robert Stitzel and Bertil Waldeck 175

A Study of the Cellular Site of Catecholamine Released by Carbachol Stimulation of the Adrenal Medulla. Barry Goz 183

The Catechol-O-Methyl Transferase Activity and Endogenous Catecholamine Content of Various Tissues in the Rat and the Effect of Administration of U-0521 (3′,4′-Dihydroxy-2-Methyl Propiophenone). Ralph E. Giles and Jack W. Miller 189

Biochemical, Histochemical and Electron-Microscopic Studies of 5-Hydroxytryptamine in Neoplastic Mast Cells. L. S. Van Orden, III, I. Vugman, K. G. Bensch and N. J. Giarman 195

Circadian Rhythm in the Serotonin Content of the Rat Pineal Gland: Regulating Factors. Solomon H. Snyder, Julius Axelrod and Mark Zweig 206

Application of Steady-State Kinetics to Studies of the Transfer of 5-Hydroxyindoleacetic Acid from Brain to Plasma. NORTON H. NEFF, THOMAS N. TOZER AND BERNARD B. BRODIE 214
Changes in Rabbit Core Temperature Accompanying Alterations in Brainstem Monoamine Concentrations. M. K. SHELLENBERGER AND J. T. ELDER 219
Histochemical Studies of the Relationship of Chromaffin Cells and Adrenergic Nerve Fibers to the Cardiac Ganglia of Several Species. DAVID JACOBOWITZ 227
Blockade of the Positive Inotropic Actions of Epinephrine and Theophylline by Acetylcholine. WALTER D. MEESTER AND HAROLD F. HARDMAN 241
A Nonadrenergic Musculotropic Effect of 2-(Cyclohexylamino)-Ethylguanidine Sulfate (SU-9707) in Rabbit Aortic Strips. R. A. MAXWELL, W. WASTILA AND S. B. ECKHARDT 248
Similarities in the Actions of Potassium and Calcium Ions on Ganglionic Afterpotentials. ROBERT L. VOLLE 253
Responses of Isolated Dog Small Intestine to Analgesic Agents. T. F. BURKS AND J. P. LONG 264
Effects of Amphetamines on Eating Elicited by Hypothalamic Stimulation. PAUL STARK AND C. WAYNE TOTTY 272
Effect of Cholinergic Drugs on Passive Avoidance in the Mouse. S. L. DILTS AND C. A. BERRY 279
Pharmacologic Studies with 7-Benzyl-1-Ethyl-1,4-Dihydro-4-Oxo-1,8-Naphthyridine-3-Carboxylic Acid. M. D. ACETO, L. S. HARRIS, G. Y. LESHER, J. PEARL AND THEODORE G. BROWN, JR. 286
Effect of Diuretics on Renal Iodide Excretion by Rats and Dogs. J. S. MCCARTHY, M. J. FREGLY AND B. R. NECHAY 294
Dose-Dependence of Drug Plasma Level Decline in Dogs. PETER G. DAYTON, SAMUEL A. CUCINELL, MARTIN WEISS AND JAMES M. PEREL 305
Further Studies on the Metabolism of Drugs by Subfractions of Hepatic Microsomes. III. Effects of the NADPH-Generating System. THEODORE E. GRAM AND JAMES R. FOUTS 317
The Metabolism of Chloroquine in Man during and after Repeated Oral Dosage. E. W. MCCHESNEY, M. J. FASCO AND W. F. BANKS, JR. 323
Importance of Tissue and Plasma Binding in Determining the Retention of Norchlorcyclizine and Norcyclizine in Man, Dog and Rat. R. KUNTZMAN, I. TSAI AND J. J. BURNS 332
Distribution, Metabolism and Excretion of Bufotenine in the Rat with Preliminary Studies of Its O-Methyl Derivative. ELAINE SANDERS AND MILTON T. BUSH 340
Urinary Metabolites of Thiamine Tetrahydrofurfuryl Disulfide in Rats. SUZUOKI-ZIRO, KISHIKO MURAKAMI, SHINTARO KIKUCHI, KOHEI NISHIKAWA AND MITSUO NUMATA 353
Antitumor Agents on the Production of Primary and Secondary Spleen Hemolysin Plaque-Forming Cells. EDWIN M. UYEKI AND JOHN LONG 365

No. 3, December 1967

Factors Influencing the Rate of Norepinephrine Biosynthesis in Nerve Tissue. R. H. ROTH, L. STJÄRNE AND U. S. VON EULER 373
Effect of Drugs on the Accumulation and Metabolism of Extraneuronal Norepinephrine in the Rat Heart. ARNOLD J. EISENFELD, LEWIS LANDSBERG AND JULIUS AXELROD 378
Effects of Ethanol and Pentobarbital on Release of Acetylcholine from Cerebral Cortex Slices. H. KALANT AND W. GROSE 386
Effect of Drugs and Cations on Ultrastructure and 5-Hydroxytryptamine Content of Blood Platelets. M. DA PRADA, J. P. TRANZER AND A. PLETSCHER 394
The Effect of Dichloroisoproterenol, Pronethalol and Propranolol on Oxygen Consumption in the Rat. JOHN L. EGLE, JR., JESSE H. MEREDITH AND J. MAXWELL LITTLE 399
The Effects of Monoamine Oxidase Inhibitors on Spinal Synaptic Activity. EDMUND G. ANDERSON, ROBERT G. BAKER AND NABIL R. BANNA 405

The Magnitude and Duration of Respiratory Depression due to Fentanyl and Meperidine in Man. JOHN J. DOWNES, RICHARD A. KEMP AND C. J. LAMBERTSEN 416
Enhancement of the Anticonvulsant Action of Inhibitors of Carbonic Anhydrase in Nephrectomized Mice: Mode of Action. WILLIAM D. GRAY AND CHARLES E. RAUH. 421
Neuropharmacologic Evaluation of 2-Phenylimidazo-[1,2-a] Pyrimidine Hydrobromide (U-13,376B), an Unusual Strychnine Antagonist. R. JAMES COLLINS, ANDREW H. TANG AND HUGH H. KEASLING 428
Metabolism and Excretion of Tritiated Dextromethorphan by the Rat. JEROME J. KAMM, A. B. TADDEO AND EDWARD J. VAN LOON 437
Membrane Potential and Tension in Guinea-Pig Ureter. YOSHIAKI WASHIZU 445
Inhibition of the Renal Tubular Transport and Excretion of Tetraethylammonium and N^1-Methylnicotinamide by Non-nitrogenous Onium Compounds. JERRY M. SMITH, NATALIA MORGENSTERN AND LAWRENCE PETERS 451
Isosorbide: Effects on Renal Function, Renal Clearance and Tubular Handling and Volume of Distribution in Dogs. JAMES H. SHINABERGER, JACK W. COBURN, RICHARD C. REBA, KEVIN G. BARRY AND LLOYD E. CLAYTON 460
Renal Effect of Ethacrynic Acid in Chickens, a Species with a Small Countercurrent System. BOHDAN R. NECHAY 471
The Effects of Furosemide on the Osmolality of the Urine and the Composition of Renal Tissue. A. G. FRASER, J. F. COWIE, ANNE T. LAMBIE AND J. S. ROBSON 475
Influence of Angiotensin on the Effects of Tyramine upon the Contractile Force of Isolated Rabbit Atria. A. ILLANES, J. PÉREZ-OLEA, M. QUEVEDO, A. ORTIZ AND M. LAZO 487
The Effect of Reserpine on Vascular Tissue Sodium and Potassium Content. OLIVER CARRIER, JR., BEN H. DOUGLAS, LYNDLE GARRETT AND PEGGY JOYCE WHITTINGTON 494
Cardiovascular Actions of Iproveratril. GORDON ROSS AND CHARLES R. JORGENSEN .. 504
In Vitro Interactions of the New Anorexic Agent WY-5244 with Cardiac and Vascular Tissue and with Adrenergic Mechanisms. THOMAS BAUM AND MELVYN I. GLUCKMAN 510
Propranolol and Isoproterenol in Dogs Deprived of Sympathetic Nerve Activity. JOAN W. FLACKE, PATRICIA F. OSGOOD AND HENRIK H. BENDIXEN 519
Studies on the Mechanism of Antihypertensive Action of Diazoxide: *In Vitro* Vascular Pharmacodynamics. ARNOLD J. WOHL, LORRAINE M. HAUSLER AND FRANKLIN E. ROTH 531
Drug Effects on Cardiac Myosin Adenosine Triphosphatase Activity. ROBERT J. LUCHI AND EVE MARIE KRITCHER 540
Suppressive Effects of Indomethacin on Crystal-Induced Inflammation in Canine Joints and on Neutrophilic Motility *in Vitro*. PAULDING PHELPS AND DANIEL J. MCCARTHY, JR. 546
Index, Volume 157, October–December 1967 555
